“ We all could go on forever talking about Ziggy. She had such a wonderful life, so full of giving love and being loved. I honestly have never known a person in my life that gave so much of themselves as she did. She always found the good in everyone and had a way to make you feel good about yourself and make you feel wanted. It was like, the more you see her the more you love her. The smiles and hugs from her will never be forgotten. I have had so many private talks with her about my personal problems in life and lifes stressful everyday problems that we all face, and she always made me feel better. She was always there when I needed her. She was just that kind of person. She knew what to say and you can tell that it was coming from her heart. Ziggy I love you and will miss you dearly. I have learned alot from you. I hope that when I leave this world that people will look at my past as we do yours because then I will know that I have touched hearts as you did, and left so many good memories as you did. When God created you he must have given you your angel wings years ago because you deserved them. Well Ziggy I could go on forever, so untill we meet again, God bless you. Love Wally

“ Dearest Grandma, You will be missed more than words can say, despite knowing you are in a better place and happier now, the pain is unsurmountable as the loss feels so tremendous and my heart aches for you. I'm so sorry I cannot be there this weekend and more sorry that I did not spend enough time with you while I still could. I'm so grateful you were able to come here to LA for Thanksgiving and am reminded of you with every step I take in my house. Thank you for being there for me literally from my very first breath. I hope to meet you in heaven when my last day comes here on earth. I love you forever, eternally. Love, Erica
