I am so sorry you're not around anymore I miss you each and every day I have some precious precious memories of you all of our phone calls every night we would talk sometimes three hours sometimes more laughing and joking and telling stories and bringing up old memories and it was a joy in everyone's life we all loved him just like he was our brother one of the best friends you could ever have and I have been wondering for years what happened to you because we had just talked and then the next thing I know someone said you had passed I never was able to get any information and today this popped up on my phone what a wonderful surprise I feel like you have come to say hello I'll never forget how we would laugh and you would beat that phone when something was funny just beat beat beat beat beat and we would be cracking up I love you so much I will always keep that place in my heart even though it feels empty I know you're around sorry you had to leave us and I know your family feels the same way any and everyone who had you as a friend or came in contact with you we all know how special you are you made our heart sing you filled our hearts with joy I really miss you Andy We had the most wonderful relationship ever and my condolences to your family I pray they are doing well love and laughter always
