“ *Ashlee was my best friend as kids and we did so many things together I will always remember riding our bikes around the block and running into each other and I will always remember how she always found away to call me on my birthday that we both will never forget bc they r a day apart and how she always wrote me long letters and I kept every one of them I still have almost everything she ever gave me we was so close even miles away from each other I so wish she would of let me know more of what was going on in her life but she was so stubborn and very strong she told me once that she looked up to me and I had no idea . If I keep writing all our memories this page would be so full bc we did everything together roller skating, barbies, sledding down the cat walk pushing each other in shopping cart going to the party store . One time I remember most we snuck out of our house and we wanted to do something mean to this girl that bullied us and we threw dirty water and mud all over her mom car in the morning we looked at it and we really didn't do anything bc all the dirty water watch mud away so we snuck out for nothing we was only about 8 or 9 we should of did eggs or something lol man so many memories man I'm going to really miss u you passed away too soon girl I love u I so wish we could go back to those days when we just ran the streets u was my best friend no one Could ever re place u REST IN PEACE and I pray everyone in ur family will be ok soon*
