“ *My Dear Betty, I am blessed to have many loving memories although sadly not in recent years. Life has a way of keeping people farther apart unless a real effort is made by all to remain close. I was almost 12 years younger, so my first memory is how very beautiful I thought you were. You inherited your mother's bubbly, kind personality and your dad's strong commanding persona and stature with the German/Henning side of your genes. It was always a joy to be in your presence. You were the one to get and to keep the conversation alive. I did not know when you died but I would have been too ill myself to visit.*

I am thankful for the many wonderful visits I had with you and your handsome Chuck, in the early 70's. I would stop by your house on Edgeworth in Royal Oak and we would laugh and chat away the afternoon with your always gracious hospitality shining at it's best. May you rest in peace until the glorious appearing of our Saviour, Jesus Christ. Cousin Karen Chaltron Chism
