“ *Bev was assigned by UCS to be my mentor when I first became a counselor around 2001 She was retired by then and came to my office at Henry Ford II High School many times to check on me and share her wisdom. I knew that she had been an extremely well-respected counselor, and I quickly realized why. She taught me so much, and I was very fond of her. I still remember many of the stories she shared with me from her own experiences. She helped me so much, and I will always be grateful that I started my counseling career under the guidance of Bev. With her kindness, intelligence and sound judgement, I could not have asked for a better mentor. I will always remember Bev and send my condolences to the family she was so proud of.*

“ *Bev taught me geometry and Dwayne taught me math 4. Because of their dedication to their students, they inspired me to go into math education. Returning to teach secondary math in Utica at Ford (from which I retired in 2013), Utica, and Stevenson allowed me to stay in contact with my wonderful teachers. Bev and Dwayne continue to be in my thoughts and prayers.*

“ *I had Miss Trombley for Algebra 2. I loved her! I had Mr. Hogg for Math IV. He was a great teacher. They both made a difference in my life. I was fortunate to know them as colleagues when I returned to UCS. Bev's compassion and positive attitude impacted staff and students alike. I'm certain you'll never know all the people that appreciate her. My deepest condolences. I will never forget her. Rae Bye*

“ Our lives crossed paths several times throughout my lifetime. She was my geometry teacher at Utica High School and a treasured colleague as a counselor when I returned to Utica High as Assistant Principal. Both Bev and her late husband Duane were wonderful educators and treasured friends. I will always remember her as an advocate for education and her students. With deepest sympathy to your family and may you find peace in remembering the wonderful memories you shared.

I will not be able to attend the memorial but want to express my deepest sympathy for your loss.

Bev and Duane were both good friends and wonderful people. They both really cared about their fellow workers and students. She always stopped in my office to get a dark chocolate from my hidden stash. We had many good laughs and times together. She will be greatly missed as was Duane. You may now meet and be together once again in the after life. Love, Judy Neisch

I only had the opportunity to work with Bev and Duane on math committees early in my teaching career. But it was always very clear to me that they loved math, they understood how kids learn and they were dedicated to their craft. Who would want anymore from a colleague? My sympathies to the family. You have lost someone special.

Not only was Bev a dedicated teacher and counselor, but she was a wonderful mentor and a loyal, dependable friend. She understood people and students, and I could always trust her judgment on many things. I will miss all of the wonderful times we spent together. The world is a better place because of both Bev and her husband Duane. They both enriched my life at Utica High, and I am very grateful for having had them both in my life. My condolences to her family.
