“ Carl transfered to the Allen Park, MI facility the same time I started with Jacobs. We hit it off the first time we met. I feel blessed having known Carl and being able to have worked with him. Carl was always optimistic and upbeat about work and life. We will miss him.

“ Carl was a mentor to me. He had a wonderfully upbeat and optimistic attitude and was truly a gifted teacher. Carl is the only person I know who has been an electronics professional since before the inventing of the transistor. His contributions at Jacobs are to numerous to mention. His "Master" series of diagnostic equipment will live on and continue to make our jobs easier and more efficient to accomplish. Carl will be greatly missed, especially since I still have some questions...

“ I was a pleasure to work with Carl, he was the most helpful person and always wanted to be involved in anyway possible. I had the chance to really talk to him, when I found out what he was fighting and I was absolutely amazed! His attitude and mannerisms about it all was incredible. He always told me all you can do is take it one day at a time! I complimented him on that approach and told him that I am sure I would not have handled things as well. Carl, you will be missed. My and my families prayers are with you and your family. Thank you for being who you are and teaching me how life should be lived! Jason Ruppert EMC Facility Milford MI
