“ We're very sorry to loss a great neighbor. He was a strong, stoic man who always looked out for those in his neighborhood. I hope he knew how much he was appreciated. You don't find neighbors like him anymore..someone who had the know how to your "how-to" questions. We're very sorry to have him gone so soon. We'll miss seeing him outside working around his house or sitting on his porch watching people going by.

“ Danny, haven't seen you since High School when I hung out with Art. My thoughts and prayers go out to your family for their loss. Was shocked to hear of your passing. I guess God needed a new Angel with a great knowledge of cars. May you Rest In Peace my friend. Dave Kerwood

“ I miss you already. Thanks for all the help through out the years. It always seemed like we were never apart when I would come home and we would end up talking until 2am. Infamous emails will be missed as well! I was hoping you would come to visit me and drive my kart so now you will just have to drive with me. You and your beautiful family with all your intensity, so few of us truly understand, are in my prayers now as ever and forever are a part of me and my family. Godspeed brother.

“ Danny was a loving son, brother, uncle and friend. My fondest memories are of watching him interact with the nephews, particularly when they were small. He had a unique sense of humor that he never lost even when he wasn't feeling his best. He was loved and will be greatly missed by many. My thoughts and prayers are with his family. May he rest in peace.

“ Danny and I go back to high school and 16 years old. I had a fast chevelle and he told me that everyone in his neighborhood opens their headers and pull hole shots in his area ALL the time. So one day in Oct. Danny and I went to his house to unbolt the headers and jumped in the car and went thru the neighborhood leaving black streaks on all the streets. We circled around the block to go look what we did and people were chasing my car, throwing stuff at it and 1 lady tried to hit me with a broom. I quickly dropped Danny off and drove home with those open pipes afraid of getting a ticket. When I got home i got in trouble from my parents for driving and making all the noise then dan called me and told me there was 3 cop cars in his area looking for me. He was laughing his ass off. Since then we were pretty good buddies till this day. God bless you Dan, and my heart goes to all his family and friends. John Pasquinzo.
