“ I'd been dealing with Dan at work for over 20 years. I thought of him as a friend not just a business associate. He and I were quite like minded and spent a lot of time solving the worlds problems, lol. He will always be in my thoughts and the Home Depot will never be the same. My deepest condolences to his family and close friends. Dan was truly one of the good ones, RIP buddy.

“ I first met Dan at Skymasters RC club many years ago and also thru Home Depot. Dan always had a smile when you'd see him and was always happy to spend some time and chat. The last time I spoke with him was a few days before he went to the hospital and tried desperately to talk to him, but there was no response from him. I truly never thought something like this could ever happen to him. He had a big will to live and to help others out and I am so saddened by his passing as others are as well. Fly safe Ole Buddy, God Speed, I'll see you again... 😭

“ I knew Dan thru Home Depot where he worked for many years. As a contractor I was there almost daily. I would always look forward to seeing Dan as he always had the answer to a question or was willing to find it for me. But more importantly he had a great personality, a pun or joke to share and made you feel good to be around him. I know his co-workers will miss him greatly, and so will I.

“ *Dan...
You were my childhood buddy. Sunny days with our friends, swimming in the pool, playing guitar singing our hearts out. We laughed, we cried, but at the end of the day, we always had fun under the sun.*

Thanks for the memories Dan. You will be missed. RIP Dan...❤️

“ Dan was a friend flying radio control Models. I own a hobby shop and when I moved Dan volunteered to help me unpack many boxes and spent a lot of hours rehanging product at the new location. Dan was always helpful to new members at the flying field and was just a very giving person in the modeling community. Dan would occasionally bring projects into the hobby shop and show me what he was working on he's was usually very excited about the project. I'll miss Dan and his friendly outgoing personality. RIP Dan and good flights friend.
