“ So sorry for your loss. We would have definitely stopped in but we were on vacation. Both Jim and I worked with your dad from good ol' Pioneer to Truck & Bus in Pontiac. We had a lot of good laughs through those years too. God Bless your family at this difficult time. It's very hard to lose a parent but when you know that they're up there in Heaven doing the things they were no longer able to do here on earth you seem to find some comfort in that.

“ I am sorry for the loss to the Halter family at this time. I am sure that Dave is at peace. I worked with Dave Halter for many years through truck applications from GM Powertrain Division to GM Truck and Bus Division. David would always banter back and forth but really blazed the way through the difficulties and complications of part release specifications. Dave would be at many pilot builds or production startup events in the full size truck plants. I always appreciated the support and direction that Dave would offer to "get the job done, and done right". You knew that his U of M hat would be close by. I looked on Dave Halter as a great friend within the GM family.

“ I worked with Dave at GM Truck & Bus in the 1980's. Great guy and he was one of kind. He was a riot to work with and I always teased him about his UofM hat since I'm a Sparty fan. Bless your family and know Dave is in a much better place.
