“ *Duane's mother was one of nine children. My father, Ed Beck being the youngest. I am 22 years younger than Duane and only met him a couple of times at his mother and step-father's home. My father spoke of him with high regards. Duane even undertook the family genealogy and traced our ancestors back to Finland. It is times like this after reading some of the memories that I wish I had known Duane and his family. He sounded alot like my Dad an inspiration to those he met and worked with. For my Mother and myself, Our heart felt condolences.*

“ *Mr. Hogg was clearly one of my favorite teachers of all time. He had the reputation of being a perfectionist, and being very detail-oriented. Students who succeeded in his class earned a special respect at Utica High, since he was known to uphold rigorous standards. I always felt thankful that my first introduction to calculus was such a solid foundation. His enthusiasm and passion for math was clearly the impetus for me to pursue a degree in the math and sciences. Thank you, Mr. Hogg. May God's warm embrace comfort your family. “ Mrs. Hogg, and boys: My deepest sympathy goes out to you. Recently, I had been thinking about "Mr. Hogg"...he was a teacher who pushed me the hardest in all my high school years, and I came many, many years later! to appreciate the way he prepared me and others for college physics and calculus. I ended up getting an engineering degree and leaned heavily on the calc basics he taught us. One incident remains fresh in my memory: I had done miserably on a test in physics I think...and my grade should have been a 48. When he graded it , he wrote 84. After a day of being racked with guilt, I went to see him, and explain that he had made an error and I really deserved the lower score. Without hesitating, he said: "because you were honest, you may keep the higher score" That taught me a life lesson that has remained with me these 30 years. Mr Hogg has left a legacy. God bless you in your grief, and may Gods peace fill each of you. Mike McKay Class of '75

“ I will always remember Mr. Hogg as one of the people in my life who pushed me beyond what I thought I was capable of. He was an inspirational teacher and he was one of the main reasons that I chose a career involving math and science. I will always remember his passion for teaching and for making sure we all "got it". My thoughts and prayers are with the Hogg family. Peace. Maureen

“ Mr. Hogg was one of the best teachers I ever had in my life! I am grateful that he laid the math foundation that I have carried on in my life. He taught me to love math and I use these same math skills in working with my 4 kids on their math homework. Our thoughts and prayers are with you. JaneUHS class of 1982

“ Mrs. Hogg, Mom just told me about Mr. Hogg's. My thoughts are with you and your family. My sisters and I cannot talk about going through Utica High School without mentioning Duane Hogg - he was such a legacy. When I think of Mr. Hogg, I always remember a newspaper clipping from years ago where Mr. Hogg and my father were pictured together using an early computer terminal. And of course I appreciate you and Duane being there for me and my family when my father died last year. It meant a lot and I regret that I couldn't be there for you. My condolences, Michael Eschenburg

I was remembering Mr. Hogg recently but was disappointed to find out that he had passed away in 2005. He was one of my favorite teachers at Utica High School, because I seemed to learn the fundamentals of mathematics and physics from him in a way that most other teachers couldn't teach me. Since I was recently thinking of contacting him to thank him for what he helped me learn I am truly sorry that I am not able to. I am also sorry for his family's loss of him.

“ I have lost a true friend who was also a great traveling partner. Wheel and I often talked about our trips, especially to Alaska in a four-seat plane in August of 1965. Also, our ride to Montreal. "Hey, Wheel. You want to take a ride to Montreal? You buy the gas, I'll drive" And away we went. Well, Wheel, you've gone on another trip and I'm sure it is the best. I also lived in Belle Bowman's house in Almont, watching the Nixon-Kennedy debates with Wheel on Belle's 6-inch, black and white TV in 1960. Bon Voyage, Wheel

“ I'm sorry to hear of Duane's death. Duane and I were teachers at Almont H.S. We both roomed at Mrs. Belle Bowman's house in the 1959-1960 school year. I had lived there in the 1958-1959 school year, my first year of teaching. We ate most of our dinners together and spent many evenings watching TV, correcting papers, etc at Mrs. Bowman's. From 1960-1990 I taught at L'Anse Creuse High School.

“ Duane was a gift to people. When I first met him some 15 years ago - he always brightened my day with compliments and making me laugh when I was down. I will miss his extraordinary brilliance, kindness to his peers, and for his memory of facts from the past. Bev you have my deepest sympathy.
