“ Papa, You are in a better place now. You were the greatest man on Earth. All of the memories we share will stay fresh in our hearts. We remember you giving us four all of your singles when we were kids. You told us if you didn't give them to us, you were going to throw them away. I want you to know how grateful we are for having you as our papa. You loved grandma with all of your being. You took great care of grandma, and for that we are thankful for too. You're always going to be in our hearts and prayers. We love YOU papa. Rest In Peace.

“ I was truly saddened to hear of Elmer's passing. I had the privilege of working with Elmer at Beaver Precision. He was the "glue" which kept the Company together. He always smiled, if he was stressed no one knew except Pat. My prayers with you.

“ To Pat and family. Some of my best working years were spent at Beaver Precision. We all became "family" there in one way or another. Elmer was first to be in the office in the mornings and last to leave at night. Elmer gave his all to the company and more. If you took the time to listened to him you could learn a lot. Pat became one of my best friends while working at Beaver Precision and still is. God bless her for all she did to make Elmer comfortable these past years. Elmer will truly be missed by his loving family and friends. Rest in peace my friend.

“ I was fourteen years old when my father started working at Beaver Precision Products and I started working there in 1980. I have known Elmer and Pat for so many years. He was a man that my father deeply respected and I too came to share that same heartfelt opinion. When I moved into the engineering department, Elmer became a mentor. He encouraged me after the death of both my parents and I could never begin to thank him for this. I hope that by letting his family know that he was so well thought of, would bring the same comfort that he afforded me. God Bless, Pat, you gave him your best!
