“ To Geri's family and good friend, Bev, I have spent considerable time with Geri during the last five months. I am sorry for the loss we experience in her death, but I know her life has been very fragile these last many months. Geri was intelligent and gracious and grateful. I loved her smile! She lit up the room on her good days. She has gone to her eternal home now and she is with God in her new life. We rejoice in that, and we give thanks for her faith and love and generous ways during her time on earth. May peace dwell now within each one of you! God bless you with the gift of peace!
