“ My Sweetest Glenda, I can not, and will never, understand why you have been taken away so suddenly. I LOVE you so much, I know you know that already though because we've always said it several times everyday to each other, at the end of every phone call, many times a day and just because it's true and we were proud to display our love and affection. I am so broken down now sweetie. We were supposed to be living out your new lease on life with your new heart, and we were until the last few weeks. Then BAM, out of nowhere, without warning, your new heart remained fine but you were still taken from us WAY TO SOON. All I've done is cry 😭😭. Just know My Sweetest Glenda, I was right there with you holding your hand when you left this earth. I got your goodbye message when you squeezed my hand and wiggled your foot, then away you went on your newest journey.

Just know this, I have always loved you with all my heart, never wavering or questioning once, throughout everything that has been thrown at us - including your major and massive medical situations, and I will continue to love you forever and until we meet again, so long for now but when you're ready for me just come and get me and I'll be there again for us.

“ Glenda is my cousin. We grew up together sharing family holidays. Glenda is the oldest of 11 children and there was always fun in their home. She was a kind and very sweet child and adult woman. Always had a sweet thing to say about any situation. She was the recipient of a heart transplant and was EVER grateful. She supported me through cancer treatment and always checked in on me. She is gone way too soon and she will be so missed. We love you Glenda...
