“ *Judy and family: it is so difficult to lose a parent. I just experienced it weeks ago. No words can ease the pain but your family surrounding you, is the best medicine for you. You have such a wonderful and caring family, so please take those hugs and condolences and cards of expression and read and re-read them. It so helps. Hugs to you Judy and I am so sorry about the loss of your Father! Jo Steuwe*

“ Where to start! Harry you gave me my first job at Lorraine Tool & Die. I learned how to multitask working there and what a fair boss you were! You encouraged all your employees to do their best and you valued the work they did. I also learned how interested you were in collecting things that you thought were beautiful or unique. You valued the inquisitive inventive mind and you also personified that.

Also I know you were my mom's paper boy at age 12, and knew her as a girl. You were so empathetic to my sister and me when Mom died so unexpectedly. You even drove us in your car in the funeral procession.

I have also been grateful to you and Lorraine for being so kind to our family over the years. You lived a great life, an excellent role model for us all. Love to you and happy you are at peace.
