

Jacqueline E. Walter

October 12, 1961 - November 17, 2019

Jacqueline Elizabeth Walter was born on October 12, 1961 in Madison Heights to Frances Mary Walter (nee Garlak) and Gerhard Horst Walter. Her father passed away on November 4, 1987. She was of Polish and German descent. Loving mother of Morgan Veronica Walter. Jacqueline graduated with a Bachelor's of Electrical Engineering from Lawrence Technological University and a Master's from University of Detroit. She held a Professional Engineer License with the State of Michigan. Jacqueline had an over 30 year career at TARDEC (Tank and Automotive Research, Development and Engineering Center (US Army) and volunteered for a number of years with the Center Line High School robotics team. She was a true do-it-yourselfer, fixing her jeep and house. She believed anything was possible if she put her mind to it. On November 17, 2019, at 58 years young, Jacqueline's life ended far too soon. Burial at Mt. Olivet Cemetery, Detroit.

“ Hello Morgan - My name is David Munn and I rented my lower flat at 3434 Durham Apt 1 in Royal Oak MI to your mother and another woman named Janice Katz starting in 1990. I am preparing to sell the property after nearly 40 years and while going through some old paperwork I found the lease paperwork along with some other correspondence .Jackie had made quite an impression on me for various reasons so I decided to Google her and see what she was up to these days .I was shocked and saddened to see that she had passed away in 2019. Given her engineering background she was very particular when any work was done around the property by various contractors that I had hired. She made many improvements to the property herself but never told me because she thought that I would think that she wasn't qualified to do the work herself. I did take notice of the work that she had done and was very thankful. Jackie was a good person highly regarded by many , myself included .Although I had'nt seen her since 1993 I hope that her remaining years were happy ones as she deserved the very best ! sincerely David Munn[dmunn@att.net]

David M Munn - April 11, 2025 at 06:45 AM

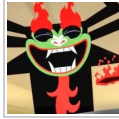

Hello David, thank you for the memory! She was like that until the end, doing everything herself haha- she had several ongoing projects at our old house. Im glad she made a good impression on you and many others.

“ I never meet you, I'm sorry for that. I'm your cousine from Germany. Stay with god beside your father Gerhard and my father Lothar. In love Daniela

Daniela Walter-Kretschmer - January 03, 2021 at 02:27 PM

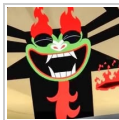

Hello, thank you for your condolences. I am Jacqueline's daughter, Morgan Walter. Nice to hear from a relative from Germany.

Momo Walter - November 26, 2021 at 09:17 PM

*Hi Morgan, just send me please your email or whatsapp. Love Daniela/

“ I am saddened to learn of Jacqueline's passing. She was a Great Engineer at TARDEC and a wonderful person. Over the years, I enjoyed supporting Detroit Mercy Engineering with her.
