“ Jeanette and I were next-door neighbors for 18 years at Village Square. I adore Jeanette with her sense of style, her zest for life, and her love of her family. We went back-and-forth for coffee all the time with each other. I remember one time I came over to her house and she had her table beautifully set, for one person. She had made herself a lovely dinner which included a glass of wine. I think it was a pork chop dinner. I said to her you're doing all this cooking for yourself? She said yes I like to treat myself well. I will love her forever.
