“ *So sorry to hear of John's passing. He was a good man, with always the best of intentions to help those who had a need. The last time I seen him was I think January or February this year; he came over with my daughter for a short visit.. when he left we all promised to get together again.. I am so sorry for your loss and send my deepest condolences to his family. He was truly loved and he will be missed by many. RIP John..*

“ Well Dad here we are now in the virtual world haha. I like to talk to you in my own world and I always will. When I heard the news about your sudden death I instantly felt a big chunk of my heart just melt away with sorrow. My task each day will be to try and fill that space with our everlasting memories and beautiful laughs (I'll never forget your laugh or your Mama Mia burp PRICELESS) and journeys we shared. I will miss all of our deep conversations so much and especially our casino trips where we hit on what we made officially our good luck machine, AKA "Grandma Tusset's machine." I'll never forget that knock on our front door that in particular one was different I knew I had you in a different way that time and oh did I ever. Even when I heard that knock I KNEW IT Was YOU "Daddy" is what I said as I looked through that window and sure enough it was you! I felt like a little girl again and that time had not took us farther apart but instead brought us closer together. I think the Lord sent you back into my life to let me know what kind of love a Father and Daughter will always share. It is that special bond that can NEVER be broken. I could talk to you about ANYTHING and you would never judge me you merely would sit back and listen as I tried to do the same for you. Our Tim Hortons Cappuccinos, Our Biggby Frozen Teddy Bear's, our Breakfast's and our LOVE for FOOD especially THAI FOOD will never be forgotten oh and lets not forget our Haagen Daz ice-cream! The saying is that our loved ones are only three feet above us. I know you will always be here to protect me and I thank you for everything you did for me especially fixing my car. i also want to thank you for being a great Poppa to Ryan (his love for flashlights, tools, and motorcycles will always be because of you. You also will always share a special place in his heart. My favorite thought and love about you is no matter what you always saw the best in people and were always so quick to help someone in need no matter what the circumstances even 0 degree weather. You were always looking out for everyone else now it's your turn to get some rest. I truly believe you were my angel here on Earth and you are one irreplaceable man and soul I truly will miss your sense of humor, your laugh, and your sense of caring for one another and showing true unconditional love for your family.
