“ Thank you for sharing your mom with me. She was my 2nd mom. I was lucky to have grown up with her in the neighborhood. Her smile, the twinkle in her eyes her laugh was one of a kind. She was beautiful, kind and funny. She knew how to make us laugh. She taught us some great dance moves and showed us how a working mom could be an amazing Boss! I loved her and will miss her. Now, she will sparkle from Heaven. I'm sure Heaven is brighter with her arrival. God be with you all at this time. Love you, Mrs. G!

“ Gianino girls and your respective families...

Is it possible to feel both heartache and happiness at the same time? Heartache because these kinds of people are rare - happiness because now - our "mom and pop" friends are together again in heaven.

Your Mom and Dad were SPECIAL people! Underscore that whole sentence!

*As our barbers for over 40 years, it was easy to build a very long-lasting friendship. Mrs. G (as we affectionately called her) cut Jeff's hair and Mr. G (as we affectionately called him) cut Dennis'. I would sometimes come along to enjoy the meeting of the minds talk!
Smile!*

From the console TV in the building to all the home like things they did to make their business friendly and inviting to all, I will most remember the genuine conversations and care they showed to everyone.

To those who came in a stranger, I'm willing to bet they came back as friend.

Both your parents were easy to help - from Dennis talking problems and solutions for sprinkling systems to Mr. G... to Jeff trying to show Mrs. G how to be a computer wizard, every interaction was engaging! They were serious at times but could be very, very funny too!

Sometimes we'd get into the car to leave the shop after a good long talk and Dennis and I would look at each other and say - "this is what we're gonna be like when we get to be that golden age!" with a wink and a smile!

We loved your Mom and Dad...we will never, ever forget them. They touched so many lives...simply unforgettable.

Our deepest sympathy goes out to all of you.
