“ Dr. Newton trained me in medical school back in the years 1984 to 1985. He showed me the mind and heart of a physician. I was also privileged to meet with Col. Newton at some military events as I was flight surgeon in the National Guard. It has been truly a blessing to have learned from such a warm and dignified human being. May the Lord provide you Peace !!

“ It's been twenty years since medical school at Wayne State and yet there are those mentors you never forget, who make a meaningful impact, and today I am remembering Dr. Newton. He loved his patients and practice and his dedication and kindness was inspiring. What a wonderful life! Thank you Dr. Newton for your mentorship!

“ My condolences to the Newton family, you have my sympathy for the lost of your dear loved one. When those whom we love is no longer there it is very difficult to deal with on our own. That is why we need the comfort that only God can give, and through His comfort you as a family, can comfort one another. 2 Corinthians 1:3,4 There is also comfort in knowing that those who have died will have a chance for a real future hope. John 5:28,29 ; 11:25,26 For more comforting thoughts go to jw.org.com official website

“ My sincerest condolences on the passing of Dr. Newton. I remember him as a kind neighbor, dedicated physician and mentor to many students in the medical field, including my daughter. He always expressed a genuine interest in my family, especially my children as they were choosing their career paths. I will always remember his dear expression "give my love to the family." I hope that the love of the Lord is returned to him eternally for the care and compassion he gave to those who knew him. With heartfelt sympathy.

“ I am deeply saddened to hear of the passing of Dr. Newton. He was our next door neighbor for 15 yrs. in Warren, and our physician & friend for many more. My brother used to mow his lawn, while my father, mother, sister, & I did his gardening because we enjoyed helping our neighbor. Our family has fond memories of the times he would join my parents for conversation after a late night at the hospital, and my mom would pull together a hot meal for him. He seemed to really enjoy the food & company. Dr. Newton cared for and mentored 4 generations of my family. He was always available for our needs and counseled more than one of us on career choices. A stately Linden tree that Dr. Newton planted nearly 50 yrs. ago still stands in the backyard of his former Warren home. It has always reminded us of him and will especially do so now that this fine man has passed. May God bless him & may he rest in peace.
