“ *Larry was an insightful writer and an excellent editor, but I knew him only professionally. Once in a while, I would get a glimpse of someone who wanted to leave a legacy for free thinkers and his family. Swift journey, Larry.* ”

“ *"I wish I could tell you that the journey of grief has stages...you will get through them, at your own pace and not others.*

I would also have to tell you that the process is not linear and definitely not unidirectional.

And just when you think you have found a semblance of sanity, one fine day without warning, anger and sorrow will punch you in the gut.

I wish I could tell you that this too shall pass but the words seem trite in the midst of depressed moments.

The seeds of the grief will linger within you, in joy and sorrow, and work and travel, in laughter and tears, in fun times and holidays.

The aloneness caused by grief will stay. As it should. For he was a part of your life; that will never change for you.

I wish I could fix this, but I know that I can't. I have felt this kind of pain & grief, there are no explanations or answers, because the universe will always whisper to you, from the realm of his spirit and his angelic guidance will always surround you, with blessings deserved for those of us that are left behind to walk this path in silence.....where time ceases to exist."

I wrote this for the Journal. Larry and our team were working on an estrangement series. I thought I would share this small piece, it meant a lot to me when Larry published it. Always the mentor, always my friend.....wonderfully talented. I will miss him, dearly. My deepest sympathy to all. Know he was loved by so many. a beautiful soul.

“ I had the honour to connect with Larry through his edgy online magazine: *Narrative Paths Journal*. He was an amazing writer, and at one point received the ‘librarian of the year’ award in New York. He encouraged other people to write in the journal as long as they aligned with the standards of literary skills and content he represented, and his sense of daring. He was a wonderful writer especially his ability to involve the reader in a journey of uncertainty —did this take place now, in the past or in the future? His twists and turns always left one wondering at the end...He was a transformative influence in my life for which I’m forever grateful. May he dance and play with other literary stars. Never forgotten. With love Hilary Bowring.
