“ *Mr. Delehent, Thank you for all the memories. You commanded and received respect always, in the most loving and forgiving way. Your devotion to your wife, Erla, was breath-takingly beautiful. You were a couple to be admired and respected. Over many years you stood strong by each other's side. When committed in love there is only that....thank you for illustrating this for all who remain on earth. My heart is so saddened by...a voice never heard again, a joke never told again...a hug missed. Mr. Delehent are we sure it is not spelled - Delehant....the strength you have left for all you loved and who love you will live forever... Our heart's are brighter and life better because you have been and will always be here. We love you all... Stand close to one another and rejoice in the love!*
