“ I too, have so many fond memories of travelling to Michigan at least once a year with my brothers and sisters, mom and dad, Dave and Nell Coons, to visit Uncle Lee and Aunt Velma. They were two very classy people, made for each other. Like Pam, I remember those special drinks, but at my age, I was only served Boston Coolers - vanilla ice cream and Vernors ginger ale! But Uncle Lee and Aunt Velma always had them on hand to serve their guests!! Now they are together again - bless them both.

“ I am thankful that you and Dad took the time each year to bring us into Michigan and for the times that we had together with the family. I have great memories of Aunt Velma and Uncle Lee. I especially remember arriving at his house and the special drinks he would love to prepare for all of us. We were such a large family. I think Roy Rogers and Shirley Temples!!! I remember Aunt Velma and how silly she was! She always seemed to joke a lot! And I still have the letter that Uncle Lee wrote to me when he lost her. He was devoted to her dearly. They were fortunate to have each other and he was such a strong personality to go on after her as he did and do so much more with his life. They are together again in some way I am sure.

“ Leland was my Father, William Sinclair's, ex-boss at Detroit Edison. Sara & I got to be part of Leland's 100th Birthday Party last year, and we were both privileged to be there. I met with Leland many times over the years when he would come over & visit with my Dad. He will be missed. Our deepest sympathy to the entire family.
