“ My favorite memory of Mitch he would make the best ham and bean soup. He would love to make them for my mom and us on the holidays. I make good ham but his was so much better and he would never tell me what he did different than what I did. I loved how he enjoyed his motorcycle and riding with Debbie and my brothers . My favorite is how he'd love to spoil Debbie.she called me when she had the opportunity to get her puppy gadget and was worried about Mitch and I told her if you want it you know Mitch will let you have it and then he ended up loving her just as much as Deb did. Rest in peace miss you
