“ Aunt Pat was the "cool" Aunt people dream of having in their family. I was always so proud to be her niece. She was intelligent, well-read, articulate and beautiful. She was also the person I could always count on in troubled times-talking with her always made me feel better. During her illness I would call her from Seattle thinking I could cheer her up. I found even when she was so sick she was incredibly charming and managed to brighten my day after our conversations. Her children took excellent care of her for many very difficult months. She clearly raised them to share the same compassionate values she demonstrated towards me her whole life. My world will never be the same without her in it. I love you Aunt Pat!
