“ Well, Rick, for 23 years we worked together to keep things running in Physical Science. Throughout that time you were such an integral part of the team that I guess I took it for granted that you would always be there. Now that you won't things just won't be the same. But you'll always be a major part of my memories of those years.

“ Ricky I haven't seen you in many year's but I can still remember when you would come down and visit us with Uncle Orval. As we grow up as cousins we all see each other but, when we grow older we seem to never stay it touch. We all have our own special memories and you will be surely missed.

“ RIP Rick. There is not a person who met you who will not remember you and smile at some crazy memory. We will remember you always.

“ Well Richard, you've left me speechless once again. You've often left me speechless--sometimes in anger, sometimes in frustration, sometimes in incredulity, sometimes in bemusement. This time it's in sadness. Will miss you buddy.

“ We will really miss the almost daily phone calls from our buddie, Richard, which often began with "Watcha ya knowen" and often included "Boy that really pissed me off." These calls then resulted in indepth conversations concerning computers, politics, family and anything that might have attracted his attention. Truly a person of infinite curiosity who held onto his beliefs with great passion. He will truly be missed. Mike and Pat Suckley
