“ Bob was one of my all time favorite people in the world! Every time he walked through the door at the Shamrock he made my day. He was kind, generous, funny and well versed on so many things. I will miss the fun times we had going to fundraisers together (always with Tom and Amy of course). Bob can never be replaced, he is and will forever be greatly missed.

“ Bob was the first journeyman I worked with when I got on the apprenticeship at Fords. Bob and his partner Gene Stralko were very important in me becoming a machine repairman. He was a great friend and I never forgot his part in my life

“ Bob was one of the first journeyman machine repairman I worked with at the Ford Sterling Axle Plant. He kind of took me under his wings so to speak. A very good teacher who had a knack for helping young apprentices. He really new his trade and was always eager to help me learn the trade. He was always cheerful and easy to work with. We use to kid him all the time about how greasy all of his tools were in his black box on wheels. One night when things were slow I took out of his box all of his tools and cleaned each and every one including the tool box. When he found out it was me he just laughed but said now it was MY JOB to get them all greasy again the way they were. Bob is also the one that gave me the nickname "PanPan" Perry. I always have good things to say about Bob. I know he will be missed by is large family and friends. Rest in PEACE my "FRIEND". Sincerely, Marc R Perry or as I was known to Bob as PanPan Perry
