You were always the one everyone went to with all their problems and you always tried to help the best you could. You were the thread that held all this togeher, the one who always tried to keep the peace. With everything you have done for everyone else theres one last thing I need for you to do for me. Find Granpa get to know him again and finally take time for you. We will all get by as hard as it might be but always remeber we all have a little of you in us. “ Grandma, you have always been more than just a grandmother to me. You have been a mother, friend, and companion. You will forever be missed. I am so happy that you were always there for me in such important parts of my life. You never gave up on me, you always believed that I could do whatever I wanted and accomplish anything I wanted. I will carry all the strength and wisdom you had with me every day, and I will pass it along to Courtney Jr. and anyone else I come in contact with. You were always there for me when I needed someone to talk to even though you had your own problems going on, you never turned me away. I know you are looking down on us and that you will be with us all the time when we need you and even just to be there. I love you so much and I know I will see you again someday. LOVE YOU GRANDMA.

“ I will always miss you no matter where i am who i am with you will be with me as my new concience to guide me through life and help me determine right from wrong, The greatest thing i will miss about you is waking up in the morning after staying the night and seeing you and grandpa together at the coffee table drinking your coffee and talking, no matter what was going on that day you where always the first to wake up and get the day started there was never enough time for you to do everything you wanted and it always seemed like you took it upon yourself to do everything for everyone, the only thing i can ask of you now is to join me at the coffee table for that morning cup of coffee to start my day, i'll have the coffee hot for you with a little bit of milk. I will always love and cherish the little things you showed me I MISS YOU GRANDMA.....
