“Dad, Thank you so very much for everything you have done for us all. Thank you for the gift of life you gave to Alan, Brian and I. What you did for us all the last 15 months and what you went through shows how much you loved all of us. You are now in a better place with no pain, tubes or machines. I know God knows what was in your heart and he has welcomed you into his home. You were a good man, husband and father. You will be missed but will live on in memory and in us boys and our kids. Becasue if not for you none of us would be here. I love you Dad! Scott
