 Alyssa
Callihan

“ *My grandma was the best grandma any grandchild could ask for. She influenced me in many ways, she was always there to listen to my rants good and bad. Grandma and i would spend almost every day together I would go over her house and make her coffee organize things talk with her & at nighttime I would put her to bed. Grandma had this keychain 'Flubber' around the time when she worked at GM every time she would travel for work i would be really sad and would miss her, i'd sometimes try to sleep in her room. One of the times she came back home from a trip she gave me her Flubber Keychain, to this day I walk around and sleep with Flubber. Grandma was not only my grandma but she was one of my bestfriend's, i'm very sad that she was taken so soon but i'm happy because she was reunited with her mom and dad. She was such a kind hearted, harmless, strong independent women & i'm happy with all the memories i have with her. R.I.P Grandma❤️❤️ -lyss*

“ *I remember all of the times mom taught us how to fix things around the house. She was a strong and smart woman. She loved her gardens and had us help build and care for them. These are just some of the memories I have :)*

MF

Your mom was my second mom. She was an amazing cook. And I will always remember having to prove I could swim before I could go in your pool. She was a strong independent role model.
